

## Engage

Break down knowledge silos across your organization. Use social learning in the flow of work to solve challenges at every step.

Engage is the personalized and collaborative Learning Experience Platform (LXP) to engage, unite, and upskill your workforce. Unlock the relationships and self-directed learning that people need to thrive in the new world of work.

### Tailored skills acquisition

Personalized learning and content to help your people grow in line with strategic goals

### Encourage engagement

Shape a collaborative culture that recognizes, rewards, and inspires contributions

### Choose your delivery

Social sharing adds another dimension to your organization's learning strategy

# Your workforce hub for informal learning pathways & connections

## Curated content playlists

Break down silos, spread know-how to where it's needed and encourage collaborative learning.

## Collaboration workspaces

Accelerate skill acquisition, deliver digestible knowledge in the flow of work and bring teams together.

## Microsoft Teams integration

Enables your employees to solve complex problems from a central digital space without the complexities of switching between tools.

## Robust recommendation engine

Peoples' interests, skills, and prior learning help build a rich learning profile for personalised recommendations.

## Interactive and social activities

Ratings, comments and curation complement formal learning programs and processes to nurture a connected learning culture.

## Accessible personalized playlists

Quickly source, create or curate expert knowledge in the form of articles, blogs, photos, podcasts and videos into playlists to personalize learning.

## Flexible access and sharing settings

Control access and privacy rights to the content within your team's workspaces and playlists. Authorize by specific people or defined job roles.

## User and content engagement reports

Recognize rising talent, subject matter experts and thought leaders as well as less-engaged individuals.

## Surveys

Quickly generate insights by collecting qualitative and quantitative feedback from your teams.

## Perform

Advanced performance management that drives sustained productivity and skills growth

## Engage

The user-friendly Learning Experience Platform (LXP) that engages and unites your workforce

## Learn

The world's most powerful and flexible Learning Management System (LMS) trusted by thousands of organizations

## Better workplaces together

Totara Engage combines seamlessly with Learn and Perform to power the Talent Experience Platform (TXP), unlocking your people's full potential.
