Ongoing talent development is the heart of the modern workforce

Combining skills with performance is the key to higher productivity, improved engagement, lower staffing costs, and sustainable profits. The Talent Experience Platform is a set of uniquely flexible and integrated tools that empower everyone in your organization to do their best work.

Tailored to your specific needs, systems and workflows, putting control in your hands

Comprehensive management across every part of the talent development cycle

Freedom of choice with a huge ecosystem of solutions and plugins

Value from day 1 as you save on technology costs and choose where to invest in content & support for your teams

Learn

The world's most powerful and flexible Learning Management System (LMS) trusted by thousands of organizations

Engage

The user-friendly Learning Experience Platform (LXP) that engages and unites your workforce

Perform

Advanced performance management that drives sustained productivity and skills growth

Learn

The enterprise LMS trusted by global brands to lead the learning experience

Take control of direct learning and certification across your organisation with the world's most powerful and flexible learning platform. Design, launch, and measure your learning experiences at pace, tailoring delivery to each person's needs.

Create a learning culture

Shape engaging courses that bring knowledge building into everyday activities

Deliver and assess

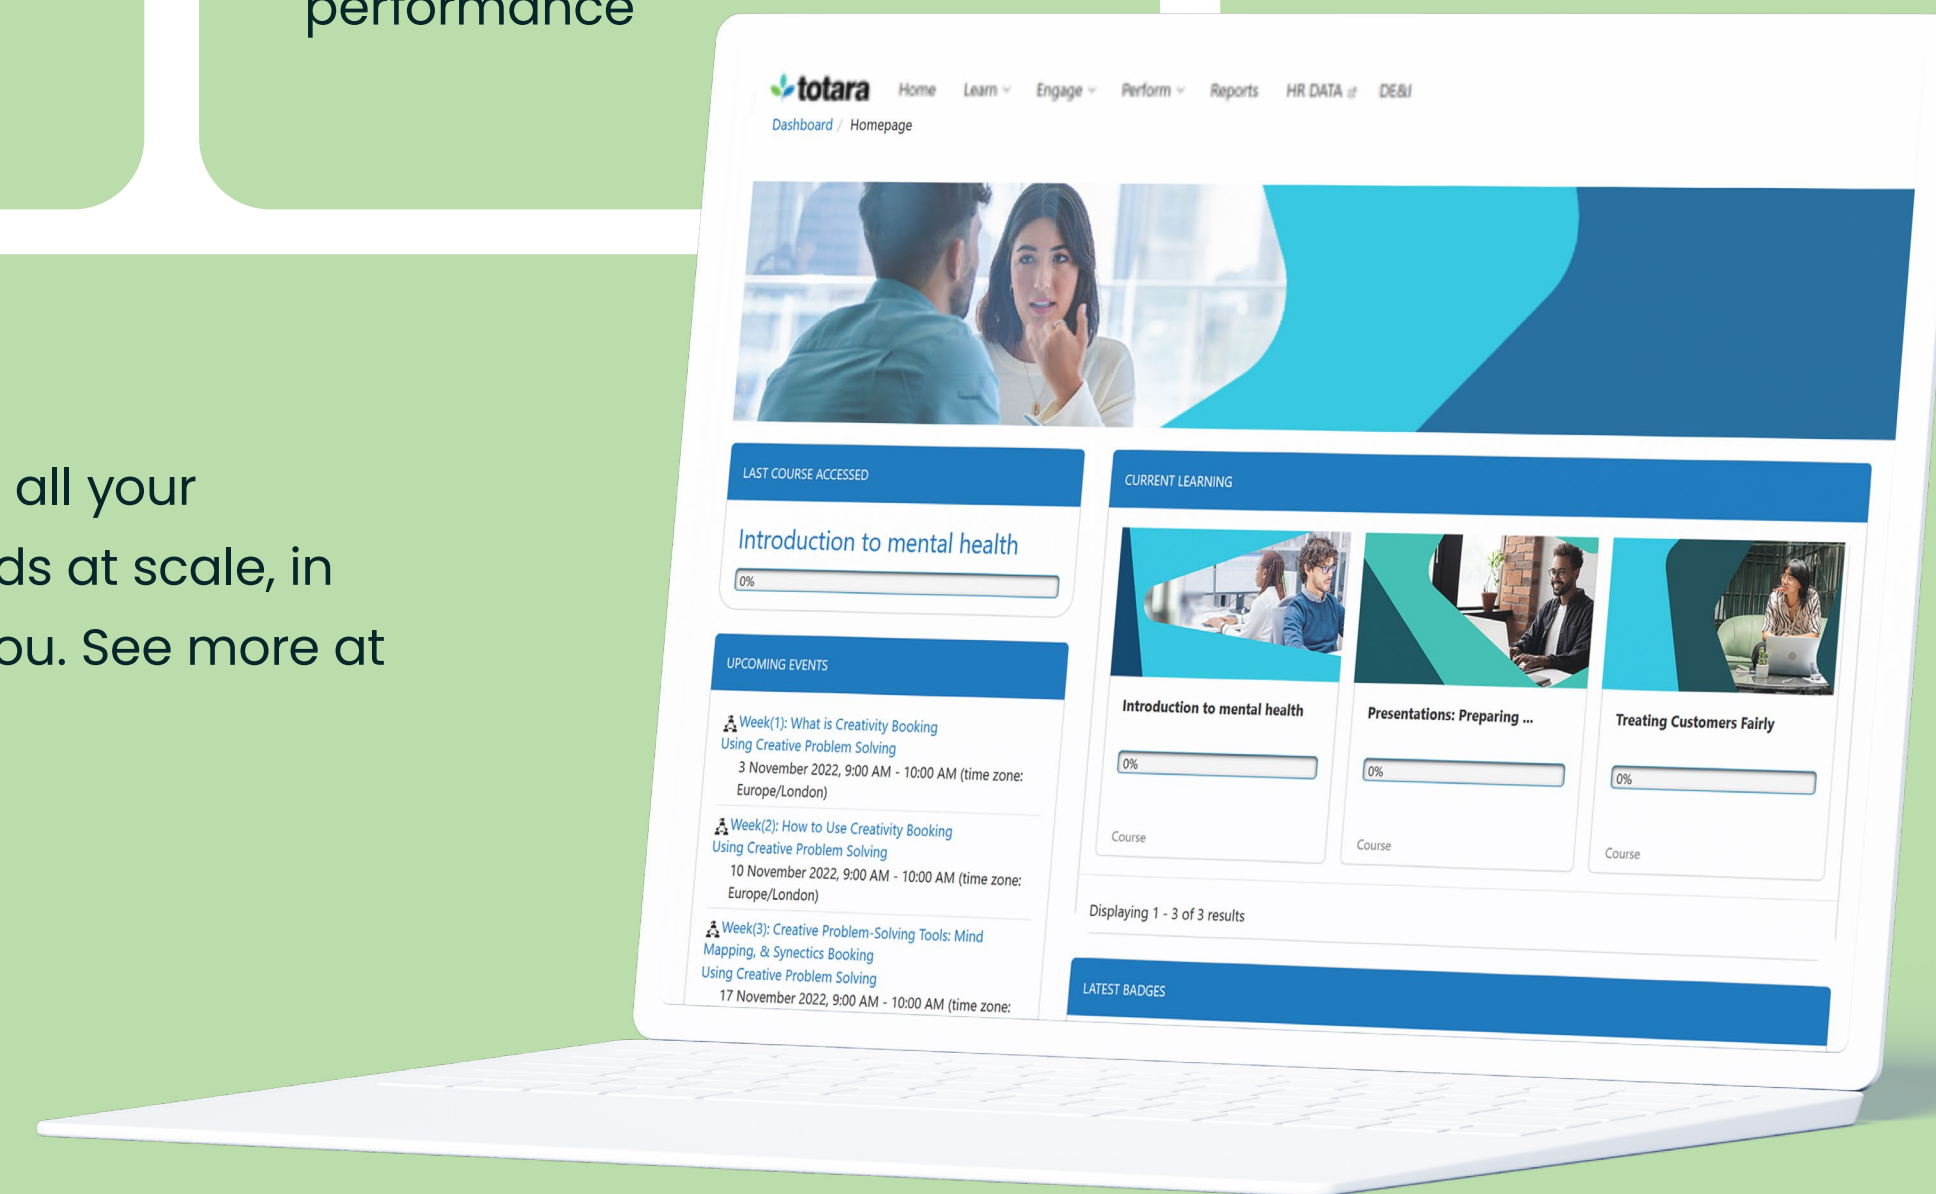

Powerful workflows and reporting to drive enterprise-wide skills development, audit ready compliance and exceptional team performance

Integrate easily

Connect Learn to your existing Human Capital Management tools and other business-critical systems

Totara Learn adapts to meet all your knowledge and training needs at scale, in the way that's just right for you. See more at www.totara.com

Share, learn and grow with the easy-to-use Learning Experience Platform

Break down knowledge silos across your organization. Use social learning in the flow of work to solve challenges at every step.

Totara Engage unlocks the relationships and self-directed learning that people need to thrive in the new world of work. See more at www.totara.com

Tailored skills acquisition

Personalized learning and content to help your people grow in line with strategic goals

Encourage engagement

Shape a collaborative culture that recognizes, rewards, and inspires contributions

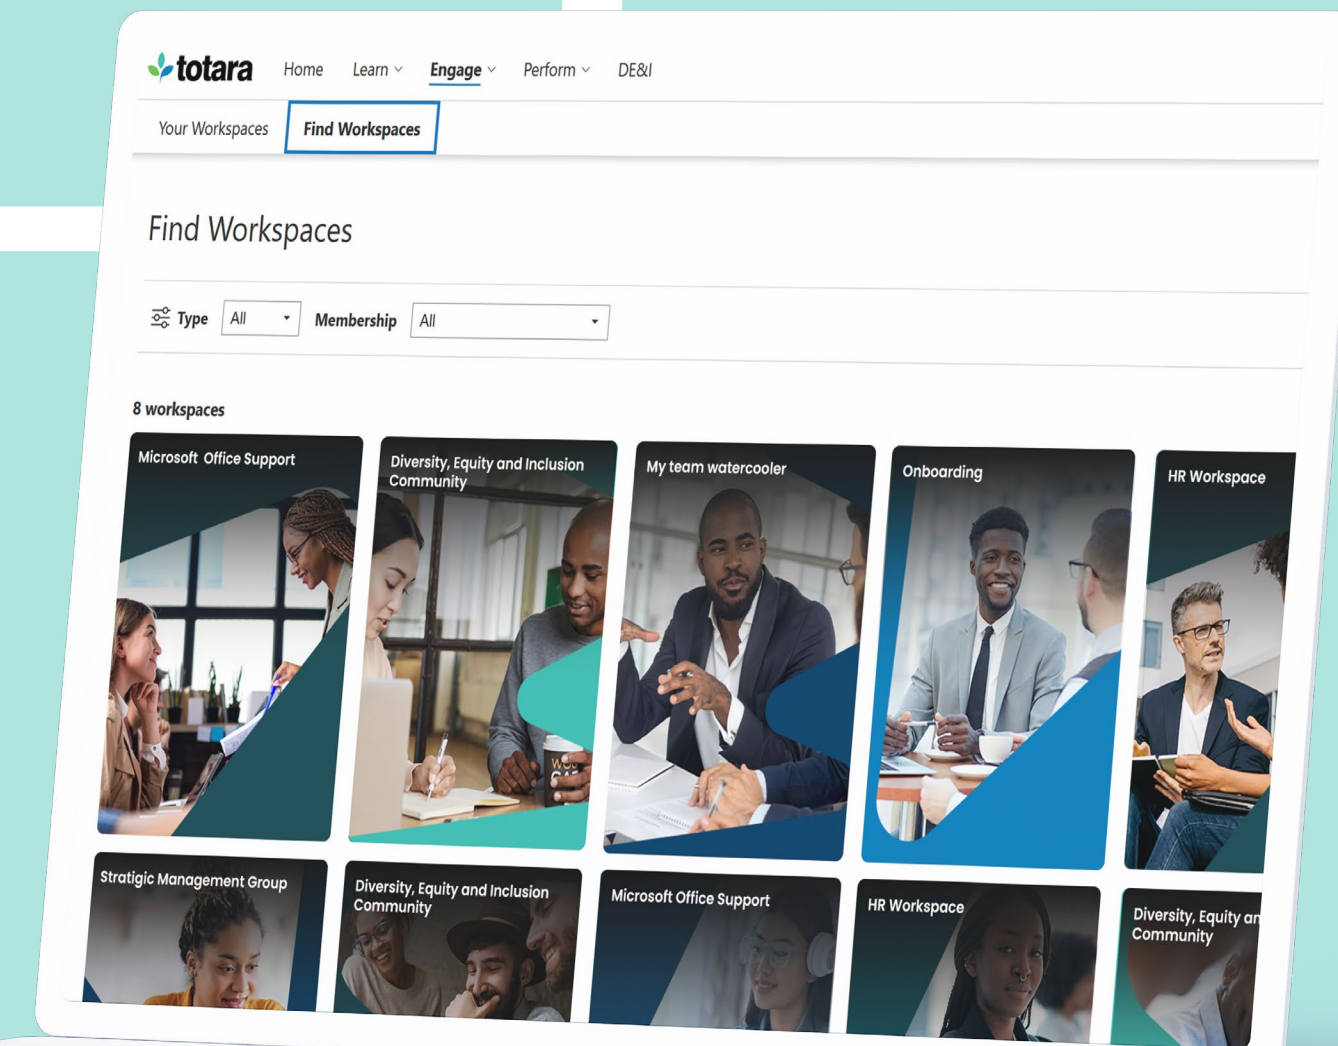

Choose your delivery

Social sharing adds another dimension to your organization's learning strategy

“The huge functionality means we are able to design, develop and deliver new and exciting learning provisions to all of our colleagues, ensuring we are fit for now and for the future.”

Malcolm Taylor, Corporate Training Manager,
UK Met Office

Advanced performance management

Perform gives you the flexibility and power to deliver effective performance management across your whole organization.

Ambitious organizations choose Totara Perform to shape high-performance cultures that constantly adapt to opportunity. Perform combines seamlessly with Learn and Engage to power the Talent Experience Platform, unlocking your people's full potential. See more at www.totara.com

Flexible approaches

Enables both traditional and continuous performance management processes

Skills-based learning

Competency profiles offer a personalized plan for learning and development

Supportive environments

Build a coach-mentor culture with check-ins, reviews, and fast feedback

Circle Health Group used Totara to raise performance appraisal compliance from 5% completion to an incredible 95%.
