LearnSpace

Learning management solution brought to you in partnership with Totara Learn.

Innovative | Intuitive | Individual

LearnSpace

Learning management solution,
based on Totara Learn.

Placing a learning management solution at the heart of your learning strategy can help save time and money spent on training and enable you to successfully manage your statutory learning needs.

LearnSpace seamlessly integrates with a range of HR systems. It provides the tools to deliver, manage and monitor skills training for your organisation.

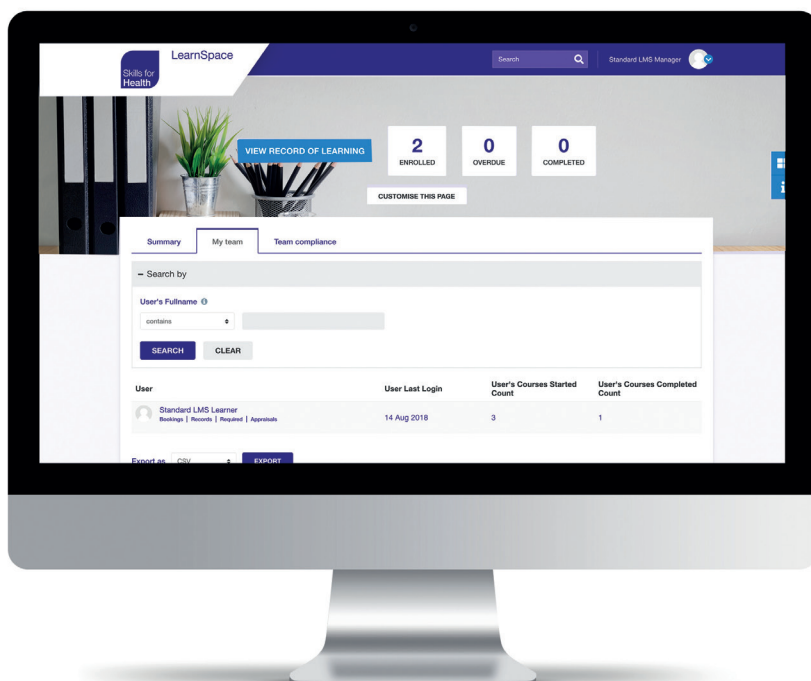

The intuitive interface gives users an engaging learning experience to easily find and complete elearning courses, whether your own or third party.

Its advanced back-end functionality enables managers to develop individual learning paths, monitor usage and publish reports from our in-built reporting dashboard, or the option to create your own customisable reports.

Our dedicated helpdesk team are also on hand to provide ongoing support and peace of mind.

We've used our knowledge and experience of the health sector to tailor the delivery of our learning solutions, providing additional optional functionality, training and support. Depending on the options you choose:

- Our team will work with you to implement LearnSpace, supporting any data migration and integration requirements.
- Our expert helpdesk team can provide dedicated technical LearnSpace support for service and system inquiries.

**Customise
LearnSpace to meet
your needs:**

1. Targeted training

Organisation and position hierarchies allow you to track specific competencies, assign learning and automatically filter reports. Assign learning to specific groups, and keep everything secure with static and dynamic audiences, making it easier to automate the learning management process and personalise the learning experience.

2. Reporting

Produce accurate and up-to-date reports, which can be easily exported and shared in real-time.

3. Easy-to-use and responsive

Enable your staff to develop their skills by providing flexible learning options that best suit their needs. Users can sign-in to LearnSpace anytime, anywhere and on all devices.

4. Branding and customisation

LearnSpace is fully customisable and can be personalised to match your organization's brand, incorporating its colours and logo for a bespoke learning experience.

5. Manage all training in one place

Set up and manage classroom based training and integrate this with online learning. Create, manage and report on face-to-face classroom-based events. Incorporate blended delivery into training programmes.

Choosing the right LearnSpace for you

Our expert learning management team will work with you to understand your exact needs, to choose the best solution.

1

Select the number of users

Simply select the appropriate subscription level based on the number of users you require to access LearnSpace as either administrators or learners across your organisation. You can add users in the future by discussing your requirements with your Client Director.

2

Select your preferred implementation

Choose from one of our three implementation options to get going seamlessly. Start-up implementation provides a cost-effective way to get LearnSpace up and running quickly with basic configuration, navigation and hosting. Professional implementation includes additional advanced theme and data configuration, enhanced reporting and a more complete solution. For a hassle-free option, Enterprise implementation provides the next level of integration including HR systems, custom themes and much more.

3

Select additional features

Choose from a range of optional features, providing an enhanced LearnSpace experience. Options include extra elearning content from our suite of industry-leading healthcare courses, or develop your own bespoke elearning by working with our training experts. Additional system features include integrations, API's, data import functionality, custom report building and much more. Our team will walk you through all the additional ways LearnSpace can enhance your organisational training.

4

Select additional support or training

We know that sometimes you need more support if you have a variety of learning management needs. Choose from a range of additional support and training services, from hands on reporting and configuration to additional remote training programmes for administrators and users. Talk to us to see how to get the most out of optional LearnSpace support services.

As the UK's leading non-profit learning management provider, our clients are part of a growing number of healthcare employers re-investing in a better future for the healthcare workforce. Join our community today.

Skills for Health, the Sector Skills Council for Health, are part of the Workforce Development Trust, also incorporating Skills for Justice, SFJ Awards and People 1st International.
